

How to Use Facebook Graphics

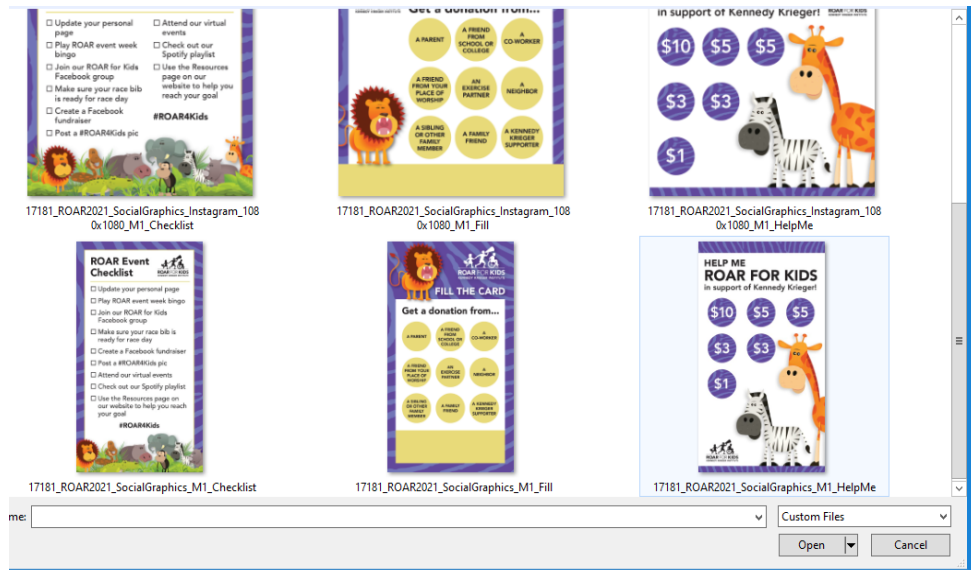

First, login to Facebook and click on the “Create Story” button at the top of your homepage

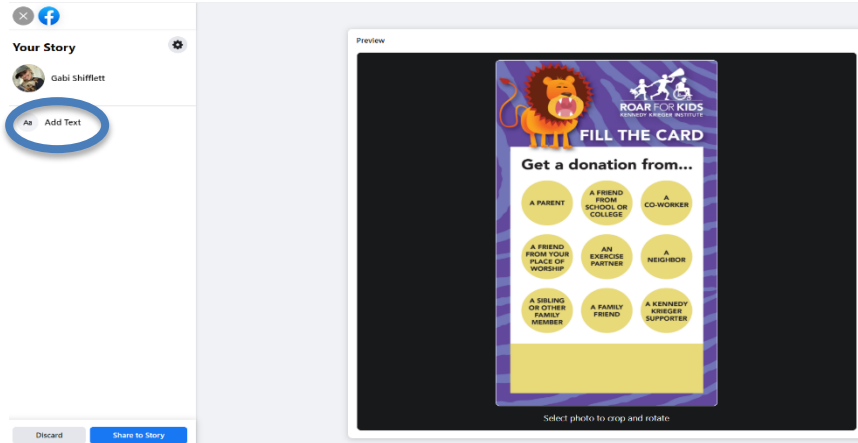

Next, click on “Create a Photo Story.”

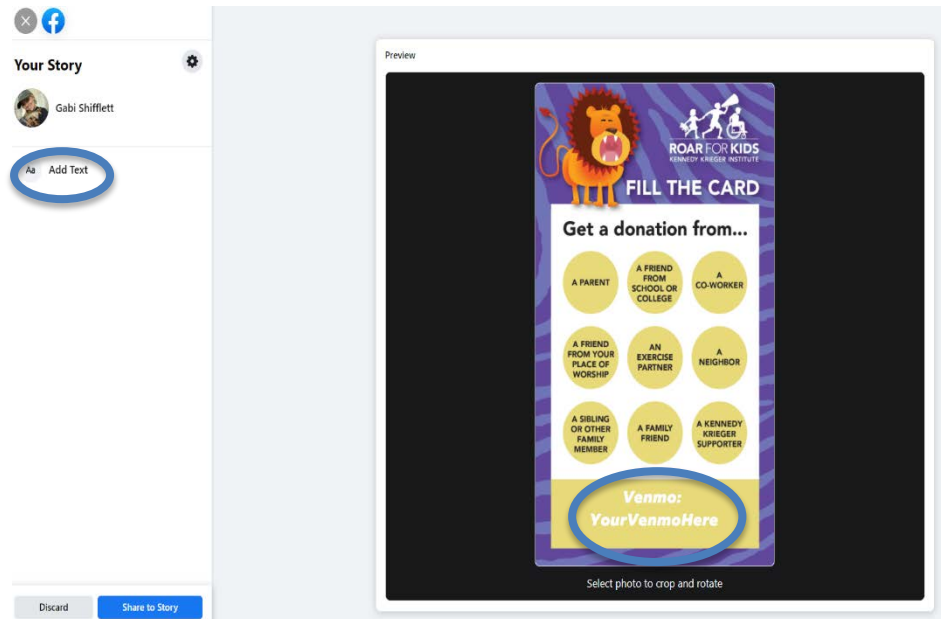

Then, choose which fun graphic you’d like to upload! You can find our graphics [here!](#)

Next, click on “Add Text” on the left side of your screen

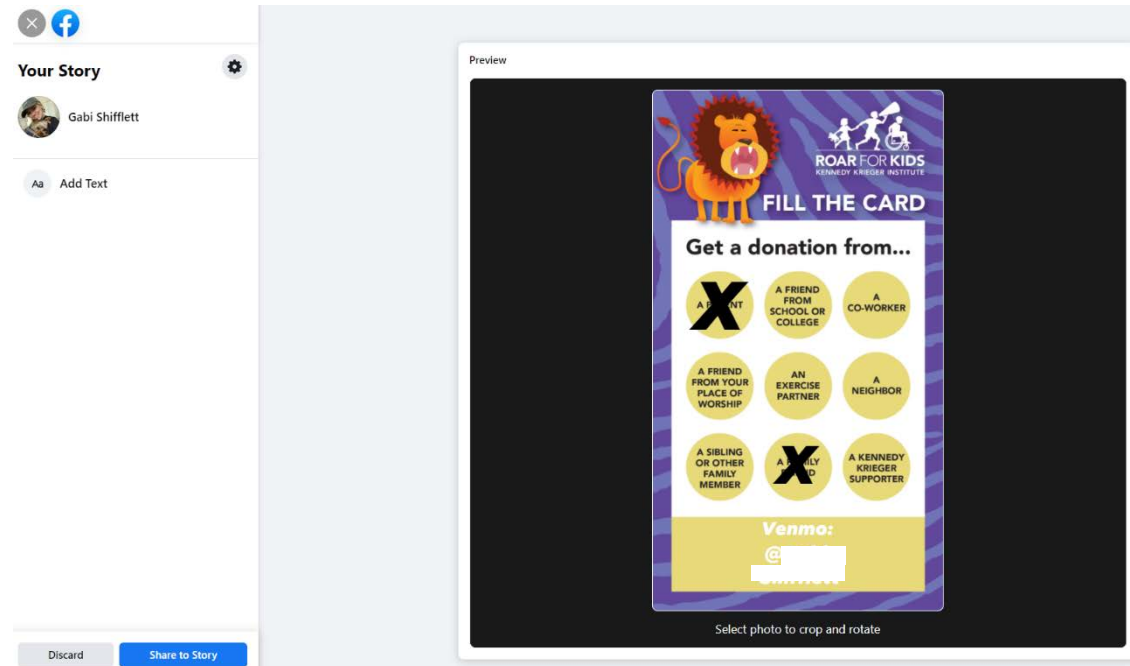

Then, use the text feature to add your Venmo, Paypal, etc. to your story! Or, make a post with your fundraising link and encourage people to donate there for a tax-deductible donation!

Your story should look like this!

Now, let the donations roll in! As your friends and family donate, screenshot your story and re-upload it, using the story text feature we used above to mark each person who has donated:

Simply keep screenshotting and re-uploading until your board is filled! If you used Venmo or Paypal, wait until your board is filled, then move your donations over to your bank account, and make a personal donation to your page in honor of everyone who donated!

The same steps can be taken with our Event Checklist graphic as well. Simply keep screenshotting and re-uploading until you've completed your whole ROAR Event Checklist!
